

Ped eWeb on line flock book User Guide

PedeWeb is an interactive 'on line' flock book. It contains all the information you would normally find in a published flock book with easy search functions, and it gives you the added advantage of being able to make application to change the entry for your own flock.

To Access PedeWeb

Go to the breed society web site www.borderleicesters.co.uk
Click on the link to **flock book**

Member No :
Password :

Type in your **flock number** and **password**, if you have mislaid this or would like to change it please email the registry.

The first screen is called Animal Search and allows you to search for any animal in the database.

Manage Your Own Flock

The 'on line' flock book is updated regularly and is a quick and efficient way to report births, deaths and sales.

To access the manage your own flock section, Click on 'Manage your flock' and confirm your email address.

A list of menu options (listed below) will be displayed and if you have not cleared it there may also be a shopping basket. The shopping basket is a tally of transactions. It is not linked to the society accounts. To clear your shopping basket, please click on 'pay now' and print the remittance slip.

The main menu options are;

1. Births – to be used to log all your lambs
2. Register previously notified
3. Deaths/slaughters
4. Transfers
5. Flag Animals for Sale
6. Show / sale entries
7. Survey
8. View / Change contact details

View/Change your contact details	Select this option to notify the Society of any changes to your Name and Address or contact details

1. Births

The birth screen only works if the mothers of the lambs are in your registered ownership. If they have not yet been transferred into the database please contact the registry office.

The system should already know your UK flock number and your flock name

Complete one 'form' for each lamb - Type in the individual tag number, the date of birth, sex, name if you use them.

Select NS for natural service (AI for artificial insemination or ET for embryo transfer.) from the drop down list

Sire – click on the down arrow alongside sire for a list of rams in your ownership which you have used before and click on the correct one if it is in that list.

If the ram you need is not listed, click on the words 'search for sire' and use the 'form' to find individual animals. Remember the more you type the fewer animals will be displayed.

Reg. No	Name	ID Tag No	Temp Tag	Owner	Breeder	DOB
Z1588	Rowntree Ivan	12345	00127			20/05/1999
Z1633	Grassroots Millaig	12345	12345			31/03/2001

Dam – click on the down arrow alongside dam for a list of all the females in your registered ownership. You can only use this birth screen for lambs whose mothers are in your registered ownership.

To reduce the list click on the words 'search for dam' and use the 'form' to find individual animals. Remember the more you type the fewer animals will be displayed.

Litter size – type in 1 for a single, 2 for twins, 3 for triplets etc

Horns - select the number of horns

Registration type – register for all lambs to be entered into the flock book, Notify for lambs which may be registered at a later date.

Click on add to application list

A screenshot of a web form titled "Add to application list". At the top is a button labeled "Add to application list". Below it is a table with the following data:

BN/Reg	ID Tag No	Temp Tag	Name	Sex	DOB	Sire	Dam
N	UK12345/12345		Grassroots Amy	F	4/2/2007	Z1588	Z1518
R	UK12345/23456		Grassroots Freddie	M	5/2/2007	Z1588	Z1530

Below the table are two lines of text, each preceded by a checkbox:

I confirm that to the best of my knowledge the information given above is correct.

I confirm that the animal(s) are without visible or know genetic defects.

At the bottom are two buttons: "Submit application(s) to Breed Society" and "Return to 'Manage your Flock' Menu".

and repeat the process for the next lamb

When you have finished the batch, click on submit application to breed society. If you have a lot to do it is a good idea to submit in batches of 10 or 20, just in case you have a power surge, or get called away to the phone. If the system, or your computer does 'time out' – when you log back in you will find the list you have created will be displayed, waiting to be submitted.

After each submit you have the option to print off a summary of the applications you have just done. Finally click on return to 'manage your flock' where you will find a 'shopping basket' with a summary of the fees due. Click on pay now to print off a remittance slip, or select 'pay by paypal' to pay by credit or debit card. You do not need a PayPal account to use this option.

2. Birth Notify to Register

Some breeds allow members to notify births and then select those they wish to register at a slightly later date.

Only alive Birth Notified animals currently in your registered ownership will be displayed. Tick those you wish to register now.

If you wish to flag animals available for Sale / hire / AI, click on that menu option and type S, H or A into box alongside the relevant animal. You can edit this at any time.

6. Show / Sale Entries

Some breed societies permit the entry of shows and sales via the PedeWeb.

Only the Shows / Sales which are open will appear in the drop down list of shows.

Only the classes available at that event will be available for selection in the drop down list of classes.

The animals in your registered ownership and eligible for the class selected will be displayed. This filters on age and sex.

Finally tick the declaration and click on submit.

7. Survey

In order to keep the society database up to date many breeds do surveys from time to time. this can also be done in 'manage your flock'

Grassroots Sheep Society
Annual Survey

The **Grassroots Sheep Society** are in the process of carrying out their Annual Survey.

This survey can be completed on-line until 30/04/2007

If you choose to complete your survey on line click on 'complete survey now'.

Every animal MUST have a tick in one of the three boxes before it will allow you to submit. The easiest way to do this is to click on 'tick all animals as alive' then work through the list and change the ones you have sold or are dead, as you go along.

When you are happy with the list click on submit. That will take you to a summary screen:

Grassroots Sheep Society
Annual Survey

You have identified 4 animals alive and in your ownership

If this is correct, please click on the SUBMIT button below to send this information to the Breed Society
These changes will not show on the web site until the next time the Society updates the data

If this is not correct, click on the button below to return to the previous screen

If you have additional animals in your ownership which have been purchased from another owner please contact the vendor to have the animals transferred into your ownership.

If you have additional animals which have not yet been birth Notified or Registered, then please use the Births option from the Menu to notify the Society of these animals

If you click on submit, the dead animals will be flagged as dead, the sold animals will not longer appear in your flock and can be 'claimed' by the new owners via the registry office.

8. Service Certificates – additional module

If you hire out your males for stud services some breed societies use the PedeWeb service certificate option.

Click on service certificates – NB this is a mechanism for the owners of the males to log the service. Only males currently in your ownership will be displayed.

Tick on one male – click on next
